Towage and Float Over of North Belut Topsides

1st June 2009, Posh Semco's 13,500BHP 165TBP AHT Salviscount towed SAIPEM's launch barge S45 loaded with 14,000mt NBCPP Topsides from Batam, Indonesia to North Belut Field in Natuna Sea, Indonesia. After arrived at the offshore field, Salviscount assisted with positioning of the barge into position through the pre-installed jacket and thereafter the Topsides were successfully installed by float over.
